

Virtual DANDRITE Lecture

Wednesday 9 September 2020

16:00 – 17:00

Online via Zoom

Please find Zoom link via the Outlook calendar invitation. If you have not received this, please write an e-mail to Kathrine Hennings: kh@dandrite.au.dk

Anthony Zador

Professor,
Cold Spring Harbor Laboratory,
New York, USA

From Connectome to computation

The wiring diagram - how neurons connect to one another - is key to brain function. I will discuss theoretical and experimental approaches to understanding how the brain's wiring diagram contributes to computation.
