

HOW DO WE CREATE A MORE SUSTAINABLE AU?

21 MARCH, 2019

Would you like to contribute to developing sustainable initiatives at AU? Join us for a sustainability seminar. The programme includes inspirational talks, a short presentation of existing sustainable solutions at AU as well as a brainstorm session on ideas for new sustainable solutions. All interested employees and students are welcome.

The purpose of the seminar is to kickstart a greater focus on sustainability at AU. The ideas generated at the seminar will be presented to AU's senior management. The discussions will also serve as inspiration for a future sustainability strategy at AU.

This is an opportunity to share your ideas about how we at AU – both as an institution and individual employees/students – can make AU greener and more sustainable.

Ideas can range from initiatives that require a managerial action, for example in relation to procurement or waste separation, to initiatives that require a behavioural change of employees and students at AU – reminders to save energy, print less, reduce air travel etc. All ideas are welcome.

PROGRAMME

WELCOME AND OPENING REMARKS
